Homes Currently Under Construction / FOR SALE

Joseph Galloro of Grajen Homes celebrates 35 years of building quality homes in Ontario. Grajen homes works directly with each homeowner to co-create, not just a house, but a home they are proud to call their own. Currently in phase 3 called The Mews in Lindsay, Ontario, our latest models are developing the Churchdown Subdivisions along the Scugog River. Since 2004 we have built over 50 homes in two phases: Trails, and Crossings. Our homes can also be found in the communities of Newcastle, Oshawa, and Richmond Hill.

Galloro, along with his daughter Jennifer, take pride in their work, making sure the individual needs of each homeowner are met, and the quality of these homes is of the highest level. Homeowners for three and a half decades have been “extremely satisfied” with their Grajen Homes. What satisfies this home-creating duo is “a job well done” – knowing their homeowner is completely in love with their new nest and feel like “there’s no place like a Grajen Homes.” And it’s for this reason our corporate logo proudly boasts the words “of excellence.”
